FRONTLINE SERVICE
HISTORY

Restored by us in 2016, this beautiful Abingdon Edition is finished in Austin Healey Ice Blue, complemented by a Navy leather interior and hood. The car has covered just 10,850 miles since its restoration and has been serviced above and beyond schedule.

This is a particularly well loved example of a Cherished car and has a comprehensive service history with us, with annual visits since the restoration and an outstanding condition throughout. A careful choice of classic colourways show the car off in a traditional style but in a shade of blue never seen before on an MGB.

- 289hp, 2,500cc engine
- LSD, Power Steering, Remote central locking, heated seats, electric windows
- Packaway hood and tonneau cover
- Apple CarPlay/Android auto
- Choice of Dunlop style or Chrome Wire wheels
- Immediately available
